

IITRAA THINK TANK

LAUNCH OF IITRAA THINK TANK

Dear Friend,

Acting further on the guidance given on 14.05.2022 by the expert panel headed by Dr R K Tyagi and subsequent deliberations with various alumni there is a thought to create sector expert think tanks from within the IIT Roorkee alumni community.

These expert think tanks may produce policy papers, white papers, concept papers, research papers and publications which may act as the policy suggestions/advocacy to the government/private sector or may guide the best way forward to the industry based on the existing policy framework. The policy papers, white papers, concept papers, research papers and publications may cover a range from a macroeconomic global/country level outlook of any sector/commodity or product/service to a variety of specific technical/techno-commercial inputs to attain an expertise in a particular field. The panel/panel will target themselves to have quarterly publications of the highest quality produced and submitted to the service of nation.

Our endeavour is to publish these reports and documents to present these in the service of the nation through government or private leadership in a manner that within 1-3 years from today we establish IITRAA think tank as the leading institution in the country whose reports and publications are keenly awaited for and followed up by industry and government alike.

A panel of experts of all vintages (3-60 years' experience in the sector) will be chosen/taken from our interested alumni. Enclosed is a survey to shortlist Top 3 Sectors and also to seek recommendations from alumnus (for self or others) to get names enlisted for sector specialists

in those panels. Please give your highly valued inputs. The survey will close on the next Sunday that is midnight of June 13, 2022 IST.

Best regards

Dr N S Kalsi

Chairman IITRAA Delhi NCR Chapter.

Assisted By

Dr Achal Mittal (R86), Vice President, IITRAA

Mr Vishnukant (R90), IITRAA- Delhi NCR Chapter
